WRITING

Today's television is a waste of time. But in today's society everything is made to waste your time. TV is no an exception. Sure, there is a lot of choice, but it is still a ~~lot~~ load of old rubbish that is soon going to fade away.

~~It~~ It's still a good money income. if you work there. That is because internet hasn't ~~taken~~ taken over yet. It will take over because the internet is constantly improving, while TV hasn't improved its quality over the last 5 years. None of the programs are even that interesting. Most of the time it's just some soap opera or news. I have no idea how people watch TV for more hours a day. Maybe it's just the old people that do not want anything new, and are afrail of change. In my experience it was always more interesting to play some games or read something.

Well, it was an enjoyable time writing this article. Always wanted to share my opinions on this topic. Hope you enjoyed it too.

Good luck!

Alex.
